## 3 Notes

- **Workplan for 2023-2024 Updates:**

**Goal 1:**Expand the promotion of lung cancer screening education, activities, resources, and tools to include Health Systems and their Primary Care Physicians, health clinics, Federally Qualified Health Centers (FQHCs), patient navigators, community health workers, and care coordinators from the insurance industry. We will use a health equity lens to identify and then focus efforts on those individuals/groups who are placed at a higher risk and who are experiencing disproportionate effects.

**Goal 2:**Promote activities, programs, and initiatives to decrease adult and youth tobacco and vaping usage. We will use a health equity lens to identify and then focus efforts on those individuals/groups who are placed at a higher risk and who are experiencing disproportionate effects.

**Goal 3:** Reducing radon exposure through PSE (Policy, Systems, and Environment) changes with a focus on individuals/communities who are placed at a higher risk and who are experiencing disproportionate effects.

- a. Testing for radon in areas with historically high radon levels and historically low testing rates, as well as environmental justice areas.
- b. Installing low-cost or pro-bono mitigation systems.
- c. Assisting communities to locate funding sources for mitigation systems

**Goal 4:** Educating and working with larger professional groups, such as Legislators, Physicians, School Administrators, and Builders, on the health risk associated with radon exposure and smoking.

- d. Increase capacity of providers to assess and discuss environmental risks such as radon exposure with patients through education.
- e. Disseminate data and radon education to identified policy influencers: PA Cancer Caucus, PA House of Representatives and the PA Senate
- f. Engage Women for a Healthy Environment to address schools and daycares across PA.
- g. Engage Tobacco Cessation Providers to incorporate radon information when speaking with clients.
