5 Action Plan

- **Old Business**

- Reviewed Survivorship Workgroup Action Plan items with Jennifer and Brenda

- **New Business**

- Discussed collaboration with other work groups, specifically the Clinical Trials and Genics/Genomics group. This can help promote and expand the knowledge of clinical trials, disseminate myths about clinical trials, and the benefits of clinical trials to the state of PA.
- Discussed how often to share emails with the group from various connections about upcoming podcasts, webinars, etc. Jennifer mentioned housing this information on the PCC website and sharing that link with the group. Also creating a place on the website where patients/survivors can view these resources
- Brenda suggested offering a quarterly newsletter with education about survivorship that could be sent to navigators, physicians, etc.

- Jackie Nixon shared information about her website CLEHR Network - where they have developed ways to bring health care and the environment together for the patient.
- Stephanie Washington asked how to focus on our goals but not spread ourselves too thin.
- Brenda encouraged the group to focus on one of the action plan items

6 Open Member Sharing/Action Steps

- Updated the Action Plan. Amy sent to group to edit/review. We will get back to Jennifer and Brenda so it can be updated on the website.
- Reach out to Genics/Genomics workgroups to collaborate on clinical trials information
- Determine the group's action plan item focus.

7 Closing/Next Meeting

- Group to meet in one month – Thursday, September 19th.
